Re: Great Lakes Navigations System Review

Dear Mr. Long:

I am environmental counsel to the Chippewa Bay Yacht Club, Inc., Chippewa Bay, New York. I would ask that you please put me on the mailing list providing me with information as it becomes available in reference to the Great Lakes Navigation Systems Review. I would like to be made aware of the comments and of any public meetings that may be taking place in reference to this review.

I would also like to urge the completion of the ecosystem wide biological assessment called for in the U.S. Fish and Wildlife Services Coordination Report which was further recommended in the Connecting Channels and Harbors Study. I have further been apprised that there are more than 40 areas of concern identified as toxic hot spots in the Great Lakes/St. Lawrence River system. I would assume the study being conducted will suggest the best approach to remove in an environmentally safe manner the millions of pounds of pollutants.

ONE LINCOLN CENTER ■ SYRACUSE, NEW YORK 13202-1387 ■ 315-422-1391 FAX: 315-422-3549

Thank you very much.

Respectfully,

GREEN &amp; SEIFTER, ATTORNEYS, PLLC

  
Sidney L. Manes
